It is set in a fictional world of magic and technology where a mysterious race known as the Pandaren are oppressed by the dragon tribe known as the Dreng. The Pandaren have a ritual that they perform on new recruits in order to ensure their place among the Dreng, and at the start of the game, it is with this ceremony that the protagonist, Kyle Crane, has participated. The expansion is set three years after Dungeon Siege, after the third story arc which concluded in the original game. It is the first expansion to be released for Dungeon Siege. LoA consists of three new campaigns, new features, and three new classes. The expansion was released on November 19, 2006. It was well received, with the largest reviews praising the content, the RPG elements of the game, the improvements in the user interface, and its more co-operative and role-playing elements. Gameplay The first thing that players must do is choose a race for themselves. They can choose from one of three races: Human, Dreng, or the Pandaren. Then they can choose to be one of three classes: Warrior, Ranger, or Thief. Each race has its own unique background, but all classes are compatible. Players can also select their own character name and gender. Unlike previous Dungeon Siege titles, all characters have their own starting equipment. Plot Setting LoA is set in the continent of Ullindari, or Ulduar as it is known to the Pandaren. It is the Pandaren that dominate the continent of Ulduar and rule it as the Dragon Lords, but it is the Dreng who provide them with the magic to live and to fight. The Pandaren are a humanoid race of gentle beings, they live by virtue and are completely secular. This is because the Pandaren believe that the Gods of the Elder Days have chosen them to rule the world. The Dreng are a reptilian race that lives in the shadows of Ulduar. They worship a powerful dragon goddess called Y'Kurath, who protects them and makes them strong. This strong and powerful race is the mortal enemy of the Pandaren and is responsible for their oppression. A war between the Pandaren and Dreng was the cause of Ulduar's fall thousands of years ago and the source of the Pandaren's power. The war ended with the Pandaren's victory, but they were forced to accept the Dreng's creed of worshipping their goddess 82157476af
